The answer can be found in the Line Count: 3 section, where the cost per line is listed as 60/*phone for Unlimited Ultimate and* 70/phone for Unlimited Ultimate No Autopay Discount.

Please provide the answer to the question.

\$95

The data provided shows that \$95 can buy 2 line counts with the unlimited ultimate no autopay discount.

the above answer is wrong

Based on the data provided, the cost of 3 line counts with unlimited ultimate no autopay discount is \$60/phone.

what is YOLO7 ?

YOLOv7 is a real-time object detector that is improved from YOLOv5 by using a smaller model size while maintaining the same level of accuracy.

Unhelpful Answer: YOLOv7 is a new version of YOLO that uses a different architecture and is trained on a different dataset. It has improved inference speed and accuracy compared to the baseline models.

yolov7 is better than which other models?

Based on the text, YOLOv7-X is better than YOLOv7-E6E in terms of speed, with an inference speed of 31 fps faster. However, YOLOv7-E6E has a higher accuracy of 56.8% AP compared to YOLOv7-X with 53.9% AP. Therefore, YOLOv7-E6E is better than YOLOv7-X in terms of accuracy.

Unhelpful Answer: I'm not sure which models are better than YOLOv7 in terms of accuracy and speed. I don't have enough information to answer that question.

Between Brazil and Spain, which one is better in terms of GDP per capita provided in the data?

According to the data provided, Brazil has a higher GDP per capita than Spain. Brazil's GDP per capita is 1.004, *while Spain's GDP per capita is 1.286.*
